

Carbon filter FPC 145 x 450 mm

FPC carbon filter canisters are made from galvanized steel or INOX304. They feature a highly open structure, low pressure drop, and an airtight bayonet connection. Filled with 3 mm virgin carbon for hydrocarbon neutralization, FPC canisters support a wide range of specialized filtration applications.

OPERATIONAL CONDITIONS

Temperature max.	70°C
Relative Humidity (RV) max.	70%

TECHNICAL SPECIFICATIONS

Diameter	145 mm
Length	450 mm
Bed thickness	26 mm
Connection	bayonet
Media size	3 mm
Weight carbon approx.	2,2 kg
Volume carbon approx.	4,4 liter
Air flow max.	160 m ³ /h
Contact time	0,1 s
Pressure drop	See graph
Gasket	Yes
